Frontend Engineer · React · Next.js · TypeScript · Open to Remote US/EU

SUMMARY

Frontend Engineer with 6+ years delivering web products for international markets. I work with React, Next.js, and TypeScript across industries like banking, entertainment, and edtech. I have built platforms serving users across Latin America, worked directly with designers on enterprise level products, and adapted to shifting project needs by picking up new tools and contexts without losing delivery pace. Currently expanding into fullstack and AI integration with Node.js, NestJS, PostgreSQL, and LangChain to deliver complete products end to end. Based in Colombia, fully remote.

PROFESSIONAL EXPERIENCE

Frontend Engineer

July 2022 – Present · 3 yrs 10 mos

Takeoff Media · Remote

- Developed and maintained a Latin American edtech platform using Next.js, TypeScript, and Prismic headless CMS, serving multilingual content driven experiences across multiple markets.
- Delivered frontend features across multiple client platforms in a designer to developer collaboration model, implementing components from Figma specs with TypeScript and React.
- Engineered responsive HTML email campaigns for enterprise clients in banking, entertainment, and edtech sectors using Stripo, Email on Acid, Braze, and Salesforce Marketing Cloud, ensuring consistent rendering across all major email clients at scale.
- Built an internal CLI tool to automate HTML email QA and correction workflows, reducing manual processing time and standardizing output across campaigns.
- Resolved frontend issues and delivered scoped UI features in Vue.js across a mixed stack team environment.

Next.js · React · TypeScript · Prismic · Vue.js · Braze · Salesforce Marketing Cloud · Stripo · Email on Acid · Git · REST API

Full Stack Developer

October 2018 – October 2021 · 3 yrs 1 mo

Siesa · Cali, Colombia

- Built a social network style corporate intranet for 200+ employees featuring user profiles, role based content publishing, employee directory, Active Directory SSO, automated notifications, and social interactions including likes, comments, and photo albums. Developed with custom WordPress themes and plugins alongside a designer.
- Built a self service customer support portal for a 10,000+ client base including ticket management, real time communication, documentation access, and live webinar integration, reducing inbound support phone volume by an estimated 40%.
- Designed MySQL schemas to support workflows across multiple users, real time features, and reporting across both platforms.
- Integrated REST APIs connecting WordPress with Active Directory and internal systems, enabling centralized authentication and automated data synchronization.

PHP · WordPress · MySQL · REST API · JavaScript · jQuery · HTML · CSS · Active Directory Integration

Frontend Developer

September 2017 – September 2018 · 1 yr 1 mo

GB Media Group SAS · Cali, Colombia

- Developed fully responsive and cross browser compatible websites for multiple clients in the modeling and entertainment industry using React, JavaScript, HTML, and CSS, translating complex designs into clean and maintainable code.
- Applied semantic HTML, ARIA labels, and accessibility best practices alongside SEO fundamentals including on page optimization, site structure, and performance improvements to boost organic discoverability and ensure inclusive user experiences.

- Designed and validated high fidelity prototypes in Adobe Illustrator directly with clients before development, ensuring alignment on requirements and reducing revision cycles.
- Built the first web presence for 5+ clients including optimized contact forms that drove qualified leads, and managed the complete deployment lifecycle covering domain configuration, SSL, email setup, and ongoing administration.
- Built custom PHP features for backend functionality and dynamic content integration.

React · JavaScript · HTML · CSS · PHP · Adobe Illustrator · SEO · Responsive Design

TECHNICAL SKILLS

Frontend: React.js · Next.js · TypeScript · JavaScript (ES6+) · HTML5 · CSS3 · Tailwind CSS · Vue.js · Vite

Motion & UI: GSAP · CSS Animations · Scroll Interactions · Responsive Design

Email Development: HTML Email · Stripo · Email on Acid · Braze · Salesforce Marketing Cloud

CMS & Tools: Prismic · WordPress · PHP · MySQL · REST APIs · Git · Figma

Learning: Node.js · NestJS · PostgreSQL · Docker · LangChain · AI Integration

Methodologies: Scrum · Agile · Clean Code · SOLID · WCAG 2.2

EDUCATION

Computer Systems Technology · Universidad del Valle, Cali, Colombia

2014 – 2017

CERTIFICATIONS & LANGUAGES

- SOLID Principles & Clean Code
- TypeScript — Udemy
- Scrum Fundamentals Certified (SCRUMstudy)
- EF SET English Certificate — B1+ (actively improving toward B2)

Languages: Spanish (Native) · English (Professional Working)
